

Text:

All around the world there are species of animals that are to disappear forever . National Parks are places **where** people take care of rare animals , plants and birds . Today there are zoos and National Parks in almost every country in the world . There are also laws against killing some animals . But hunters kill some animals for **their** skin and fur . Many people just love to wear coats , belts and shoes from the fur or the skin of the animals . Of course , people can ‘t stay indifferent to these problems. There are a lot of special organizations , which try to save our nature . The most known are: The World Wildlife Fund (WWF) and Greenpeace .

These organizations helped to create more than 250 National Parks . Greenpeace began its work 20 years ago . And now Greenpeace is a world –famous organization, which saves plants , animals and people .These organizations want to rescue animals , to help them to survive and to save jungle rain forests ,which are in danger of destruction . And they also help animals because many of them have already gone ,as they have nowhere to live .Their homes ‘‘the trees’’ have disappeared . We must save wild animals . And we must find the right way to save land , people and animals . We must take care of nature because we are part of it .

Adapted from’’ Esl printable’’

I Read and Do

Task One : I read then I answer the questions (3 pts)

- 1- Give a title to the text .
- 2- Why do people kill animals ?
- 3- Must we take care of nature ?

Task Two : I read then I say what do the underlined words refer to (2 pts)

- **where** :

-**their** :

Task Three : I match words with their definitions (2 pts)

- | | |
|------------------|--|
| - Extinct | - An area of land that is reserved by the government |
| - National parks | -animal or plant existing in a very small number. |
| -Rare | -to save from any violence, danger or evil . |
| -To rescue | - No longer in existence, having died out. |

I Practise

Task One : I fill in the passage with the following words (2 pts)

Region – mammal – meters – Canada

A polar bear is a animal . It lives in Arctic Circle ,and Greenland . It lives in very cold It is very big ,up to three long and very dangerous .

Task Two : I put the verbs in brackets in the present perfect tense (1.5 pts)

- 1- He (not to work)as an ecologist for 8 months .
- 2- Many animals (to live) in North Africa for a long time .
- 3- Algeria (to be)a member of UNESCO since 1962.

Task Three : I fill in the table (2 pts)

<u>Adjective</u>	<u>Comparative</u>
Short
.....	Luckier than
Big
Good

Task Four : I mark the intonation of each question (-) (1.5 pts)

- a- Are there any litter bins in your school?
- b- How can litter be dangerous to wild life ?
- c- Must we save endangered animals ?

I Think and Write

Many animals are in danger of extinction because of pollution , forest fires , deforestation

Elephants which are the biggest land animals are one of these endangered species . I use the information in the profile to write a paragraph about them.

Common Name : the elephant

Classification : mammal

Diet : herbivore

Lifespan : 70 years

Height : 3.5 meters

Habitat : Africa and Asia

Weight : 6000 kilos

Physical features : grey colour , no hair , long nose (trunk) , white teeth (tusks)

Status : endangered

Threats : illegal hunting and cutting down trees

Solutions : build National parks , stop hunting , protect forests ...

Good Luck

Happy Holidays
